ELSIE SIGEL IS MURDER VICTIM

Granddaughter of Famous German Soldier Slain.

BODY JAMMED INTO A TRUNK

Brutal Crime Committed in a Rooming House Over a Chop Suey Restaurant in New York City—Proprietor of the Resort Missing—Murdered Girl Had Been a Missionary Worker Among the Chinese of Gotham.

New York, June 19.—Elizabeth Sigel, daughter of Paul Sigel and granddaughter of the illustrious Franz Sigel, the German warrior who enlisted his services with the Union army during the Civil war, is according to all indications the victim of one of the most sordid murders in the history of New York. Taken from a trunk in a room of a Chinaman above a chop suey restaurant in the Tenderloin, the body, in a state of decomposition which made identification difficult, lies in the morgue, while detectives are collecting the threads of a tangled story involving the girl and her associations with Chinese. An envelope addressed to the girl found in the room where the body lay, a locket bearing her initials, her disappearance on June 10 and a note found in the room, signed "Elsie," all seem to indicate that Franz Sigel's granddaughter was murdered. The body was partly stripped of its clothing, tied with ropes, wrapped in a faded blue blanket and crammed into a dilapidated old trunk, where it lay for a week at least before the odor crept through the building, arousing the suspicions of the phlegmatic proprietor of the restaurant below, who summoned the police and instituted an investigation.

Proprietor Is Missing.

Sun Leong, proprietor of the restaurant, who also conducted the rooming house above, disappeared shortly after the discovery of the murder, adding further to the mystery. The case has many unusual features, notable among which is the fact that a Chinaman has been known to call at the Sigel home, presumably with the sanction of the parents. Elizabeth, or Elsie, was twenty years old and was greatly interested in work among Chinese. It is understood that she became acquainted with one Chinaman who may be able to throw some light on the case, several years ago, when he conducted a cane rack at an amusement park at Fort George. The Sigel home in Wadsworth avenue, the Bronx, is not far away from that resort. Neighbors said that the calls of the Chinaman at the house ceased more than a year ago.

Three Chinamen were arrested as material witnesses. They gave the names of Yee Kim, manager of Sun Leong's restaurant; Gong Wing, salesman for a chop suey supply house, and Chin Sim, a cook who lived in the rear of the restaurant.

The man most wanted, however, is the foreign occupant of the room where the body was found, evidently an English-speaking Celestial, who either knew Elsie Sigel or knew someone that knew her. And judging from the letters this individual is Leong Loo Lim, known among his English friends as William L. Lion.

Mrs. Paul Sigel, when shown the jewelry found in the trunk containing the body of the murdered girl in a Chinese rooming house in Elghth avenue, identified it as that worn by her daughter Elsie. A woman settlement worker in the meantime had identified the underwear as that worn by the girl.

BLAST FOR WOMAN SUFFRAGE

Bishop Doane Warns Girls Against Heeding the "Loudly Shrieked Call." Bishop William Croswell Doane said in an address the other day to the graduating class of St. Agnes' school at Albany, N. Y.:

"I cannot count it necessary and perhaps it is not wise for me to caution you against the loudly shrieked call to give women the right to vote and to be voted for.

"I am disposed to think that the quiet and decent appeal of a few of the so called suffragists will be so drowned in the sort of howling derisive performance of the so called suffragettes that it will fall of any effect.

"At any rate, the argument should be addressed rather to legislators than to you, except so far as one is justified in saying here to you that your womanhood will gain nothing by suffrage and is losing every day in its dignity and its true influence by the hysterical clamor which is employed in the pursuit of this chimera."

ADMITS IT IS A FORGERY

Brandenburg Says Signature of Grover Cleveland Is Not Genuine.

New York, June 19.—The authenticity of two words on a slip of paper in a glass case—Grover Cleveland—about which the trial of Broughton Brandenburg, the magazine writer, charged with grand larceny for the sale to the New York Times of an article purporting to have been written by Mr. Cleveland, has largely centered so far, lost something of their importance when Brandenburg's counsel announced that his client would admit that the signature was a forgery, and not that of the former president of the United States.

This rather surprising turn in the case occurred after Richard Watson Gilder, the veteran magazine editor, had declared emphatically on the stand that the signature shown him was not that of his old friend, Grover Cleveland. At this point Brandenburg's lawyer interposed a statement. "We do not contend," he said, "that the signature in the glass case is genuine. After Mr. Gilder and Mrs. Cleveland have said it was not, we would not possibly presume to say it was."

As if approving the attitude taken by his counsel, Brandenburg turned and said:

"We intend to show that the forged signature was substituted for the real one. I never saw this signature till the trial commenced."

The prosecution rested its case and after the opening for the defense, Brandenburg was on the stand for a short while.

CHASED OUT OF TOWN BY A MOB

Bishop and Two Priests Driven From a Village.

Ulysses, Neb., June 19.—Right Rev. Bishop Bonacum of the Catholic diocese of Lincoln, Father O'Brien of Seward, and Father Kline of Brainerd were driven from this village by an angry mob of between 200 and 250 people. The bishop and his priests had come to Ulysses to formally take possession of the church here over which Father Murphy has held charge. Sympathizers of Father Murphy, both Catholics and non-Catholics, joined the mob and would have done violence to the bishop and party had it not been for the efforts of Father Murphy, who counseled the mob to do no violence and who requested that the visitors be let alone. So threatening, however, was the aspect that Father O'Brien secured a livery rig and taking Bishop Bonacum and Father Kline, left in the direction of David City. This rig was followed with an automobile with church enemies of the bishop. The rig was overtaken three miles from town and the bishop and priests were forced to get out and walk and the liveryman was made to drive back to Ulysses without his charges. When last seen, the bishop and his party were walking along north toward David City. They were not harmed, but threats were made to treat them with various indignities.

GOES TO THE JURY TODAY

Trial of Patrick Calhoun for Bribery Nearly Ended.

San Francisco, June 19.—The case against Patrick Calhoun, president of the United Railroads, on trial for the alleged bribery of Ferdinand P. Nicholas, a member of the so-called Schmitz board of "boodling" supervisors of San Francisco, will be given to the jury today. It was expected that Prosecutor Heney would conclude his closing argument early enough Friday to enable Judge Lawlor to instruct the jury, but it became necessary to hold a night session, and even then Mr. Heney did not finish his argument.

Throughout the long session the audience which crowded the courtroom listened in tense silence to Mr. Heney's analysis of the case, his bitter invectives against the defendant, and so-called "graft ring," and his impassioned demand that Calhoun be sent to the "rest he has earned, behind the bars of San Quentin."

Murderer Makes Temperance Address.

Salem, Ore., June 19.—Adolf N. Nordstrom, convicted of the murder of John Peterson, foreman of a railroad construction gang, last February, was hanged here. Nordstrom, on the gallows, gave a temperance address.

INCREASES DUTY ON PRINT PAPER

Senate Raises It Up to Four Dollars a Ton.

NO AGREEMENT IS REACHED

Senator Aldrich Vainly Endeavors to Have a Time Set for Voting Upon the Various Income and Corporation Tax Propositions—Discussion of the Tariff Confined Largely to the Democratic Side—Bailey and Hughes Clash.

Washington, June 19.—Just before adjournment the senate adopted by a vote of 44 to 32 the amendment of the senate committee on finance fixing a duty of \$4 a ton on print paper, in place of the house rate of \$2 a ton, but the other amendments to the wood pulp and print paper schedule had not been acted upon when the senate adjourned.

After this vote had been taken there was an effort to reach an agreement upon a time for voting upon the various income and corporation tax propositions. Mr. Aldrich sought to obtain a general agreement to postpone the further consideration of this question until after the disposal of the tariff schedules, but Senators Bailey and Cummins insisted upon coupling with the agreement an understanding that there should be taken a direct vote upon the adoption of an income tax amendment, and no agreement was reached.

The discussion of the tariff in the senate was confined largely to the Democratic side, and while technically based upon the tariff, had more pertinent reference to the Democratic national platform. The immediate subject of debate was an interview with former Representative John E. Lamb of Indiana, in which that gentleman was represented as criticizing some of the Democratic senators who had not cast their votes on some of the schedules in accordance with the declarations of the Denver platform. Among those who were referred to were Senators Daniel of Virginia and Simmons of North Carolina, and each made response to the criticism.

Senator Bailey took occasion also to reiterate his independence of special declarations by the party and Mr. Hughes, the new senator from Colorado, was ultimately drawn into the discussion. Mr. Bailey having said that the Denver platform had been the work of one man, Mr. Hughes entered upon a defense of Mr. Bryan and of the platform. His remarks caused Mr. Bailey to again take the floor and in defending his position he undertook to show that by his vote for a duty on lead ore Mr. Hughes had himself not been entirely controlled by the official utterances of his party. He made reference to "trusts" and masters, which in turn aroused Mr. Hughes, and he responded with much feeling, declaring that he was under no outside influence and under no obligation to any trust. Mr. Bailey disavowed any intention of making such an intimation and the incident was closed.

Previous to this discussion a vote had been taken on Senator Brown's amendment providing for the free importation of print paper and it was defeated by a vote of 29 to 52.

BRIDE AND GROOM BOTH DEAD

Heart Failure Thought to Have Been the Cause.

Williamsport, Pa., June 19.—Albert Munro and his bride of a week were found dead in their chamber here. There was nothing to indicate violence. They were in their night clothes and the gas was burning brightly, indicating that they had been overcome before getting into bed. The woman's body was on the floor and the man was leaning forward across the bed. The dead man was a clerk in the office of Chief Vornes of the Pennsylvania railroad police and was twenty-two years of age. When last seen he was in the best of spirits and the suicide theory is given but little credence. The couple were married June 10 and had just returned from their wedding tour.

After a thorough investigation the officials state it is their belief that Mrs. Munro died suddenly from heart failure and that the shock superinduced a similar fatal attack on the young husband. No evidence has been found to bear out the belief of either murder or suicide. An autopsy will be made.

"How did Tom manage to get so much of his uncle's estate?" "He married his lawyer's only daughter."—Boston Transcript.

FATAL BALLOON ACCIDENT

Russian Court Chamberlain, His Wife and a Count Killed.

St. Petersburg, June 19.—Court Chamberlain Palitzin, his wife and Count Rostoffteff were killed and another person suffered severe injuries in a balloon accident here.

The balloon General Wannowski, belonging to the army department, in which four officers had a similar misfortune a year ago, ascended from the military balloon park in charge of Captain Korbe. In the basket with him were Court Chamberlain Palitzin and his wife and Count Rostoffteff, director of the private chancellery of Empress Alexandra. The balloon drifted across the city at an altitude of a little less than a mile and when it was just above the outskirts, Count Rostoffteff by mistake pulled the rip cord.

As the gas escaped from the envelope the balloon descended rapidly to the ground and the car fell in the garden of a country house. Mr. Palitzin, his wife and Count Rostoffteff were killed by the fall. Captain Korbe escaped with a broken leg.

Minnesota Boy Drowned.

Crookston, Minn., June 19.—Red Lake river claimed its second victim of the present year in Ernest Easthagen, the eight-year-old son of Mr. and Mrs. Godfrey A. Easthagen. The little boy was playing on the banks in the river and slipped. He never came to the surface. His body was recovered.

MUSICAL FESTIVAL IN NEW YORK CITY

Will Be the Greatest Songfest Held in America.

New York, June 19.—For size and distinction the musical festival which will begin tonight in Madison Square Garden, to last four days, has probably never been rivaled in America. The men in charge of the festival declare that never before has there been assembled in this country so great a number of singers to interpret the works of the masters of the musical art.

Among the prominent features of the festival will be concerts rendered by a male chorus of 6,000 voices and an orchestra of 100 pieces. A special feature will be the contest open to the singing societies of the United States competing for the famous "Kaiser prize," a statue donated to the United Singers of New York by Emperor William.

For the first time in the history of music festivals in America there will be competitive prize singing by American glee clubs for a prize donated by a well known American citizen, for which clubs in the east and middle west have been invited to compete.

President Taft and Governor Hughes, with many other persons of prominence, have promised to attend the festival.

A Love Story

There is no season of the year when a love story is more appreciated than in the days of June. The July issue of the Ladies' Home Journal, just out, is a love story number and it contains a number of splendid stories such as characterizes this Journal.

Tempting meals for Hot Weather

This is a practical and pleasing article which all women will appreciate. Good hot weather menus are always wanted in summer time. This issue gives some excellent ones.

Your Summer Clothes

Every issue of The Journal gives splendid helps on "what to wear" but this issue is particularly helpful in that it shows a splendid lot of hot weather garments which are easily made by the help of the Ladies' Home Journal Patterns.

I Love but You

The musical numbers in the Journal are always appreciated. The above is the title of one of Cole and Johnson's new love songs. Words and music are by J. Rosamond Johnson. This appears in the July Journal.

Light Summer Reading

Several titles of articles in the July number: "Courtship Molly," "The Love-Story of a High-Born Japanese Girl," "Two Little Tales of Two Proposals," "Charming Peggy," "Getting along without Father," Yokes for Girl's Summer Dresses," "What is new in Centre Pieces," "Kentucky Mountain Patchwork Quilts" and others.

We sell the Journal

We take orders for the Ladies' Home Journal. \$1.50 for a years subscription. We also sell the Ladies' Home Journal Patterns.

WRIGHT BROTHERS HONORED

Given Medals by the Nation, State and City.

Dayton, O., June 19.—Wilbur and Orville Wright, the aviators, have received the medals awarded them by act of congress, by the legislature of Ohio and by their home city of Dayton.

One hundred and twenty thousand people, the entire population of Dayton, celebrated the event.

Immediately after the ceremony, the Wrights hurried to their aeroplane factory to prepare for their departure for Washington, where next week they will resume their flights for the government.

Disregarding his usual practice of reticence, Wilbur Wright, on receiving the medals, made a speech in which he likened an inventor to a poet, saying that neither poet nor inventor would suffer indifference if their wants were really known and declaring that, in his belief, if a Shakespeare or a Tennyson could be

created by public subscription public sentiment was such in America that whatever was necessary would be forthcoming instantly.

General James Allen, chief signal officer, representing Secretary of War Dickinson, presented the national medals; Governor Judson Harmon of Ohio presented the Ohio medals, and Mayor E. E. Burkhardt of Dayton gave the local medals. The presentation ceremony, which was held in the fair grounds, was impressive. Behind the Wrights on rising tiers of seats sat 2,500 school children dressed in red, white and blue and arranged to represent an American flag. Troops and brass bands gave a military aspect to the throng.

Beside the aeroplanists sat Miss Katherine Wright, their sister; Bishop Milton Wright, the father, who delivered the invocation, and other members of the Wright family.

The man who says nothing may be a deep thinker, but of what use is a vein of gold if it can't be brought to the surface?—Exchange.

vices. Texas must be a strong state.

SMILE and be happy, you will live

a better opinion of you—besides the
world will look brighter.

THE Walker Pilot suggests that the
public has got to look to something else
besides the tariff to keep hosiery up.
Yes, most of us wear 'em.

CHURCH parsonages are not exempt
from taxation, according to the attor-
ney general. This will not be a popu-
lar ruling, but there is no election.

REP. BJORGE, the author of the ton-
nage tax bill, is thinking seriously of
getting into the gubernatorial game.
He will not get far enough in to hurt
him in this section of the state.

THE governor of Minnesota has lec-
ture engagements for forty nights at
\$200 per night, and in that six weeks
will receive more money than for the
whole term as governor. The people
pay the freight.

HARVEY GRIMMER, the man who
guides the destiny of the ship of state
and tells Gov. Johnson where to head
in at—on milk licenses, has gone to
New Brunswick. Until Harvey re-
turns there will be no new tricks turned
at the marble monument in St. Paul.

WHEN Gov. Johnson signed the bill
that made it possible to require the
man or woman who owns one cow and
sells milk to his next door neighbor to
take out a state license he did not know
what a tempest he was raising. The
bill was passed by a republican legisla-
ture, but it was the creature of the
state dairy and food department, one
of the democratic departments of the
present administration.

THE "insurgents" are about to ad-
vance upon the republican and demo-
cratic parties of Minnesota and annihi-
late them. The new party organiza-
tion are the dissatisfied ones of the old
parties, the followers of La Follett and
Bryan, and they seem to be aggrieved
over the governor's veto of the ton-
nage tax bill. The first gun of the ad-
vancing opponents will be fired at Ada
the latter part of this month.

MANY people who have located in this
section of the state, not necessarily in
this county, but in Cass and adjoining
counties where the country offers spe-
cial inducements for the building of sum-
mer homes and hunting camps, are
becoming disgusted with the thieving
gangs that seem to be ever alert, and
who annually break in and carry off
everything of value that is left by the
owners. Dr. Bemis, of St. Paul, who
had built a summer home on Gull Lake
in Cass county found it stripped this
spring and he put detectives on the
case and landed the parties he consid-
ered guilty of the crime in jail, but at
the trial the men were let go, and now
Mr. Bemis is offering his place for sale,
claiming that "he who seeks justice in
Cass county seeks in vain." The tour-
ist business and the money spent by
people who own summer homes in nor-
thern Minnesota amounts to many
thousand dollars each year and it is
acts of this kind that will drive this

TAKING EVIDENCE
AS TO THE MAINS
Appraisers Spending Much Time
Hearing Evidence as to Con-
dition of Pipe
TO MAKE PERSONAL INSPECTION
Mains will Laid Bare in Several
Places and Some Pieces
Will be Cut Out

Friday afternoon was spent by the board of appraisers of the waterworks plant in listening to the evidence of various plumbers who had worked on the mains at various times in the past.

Richard Huston, who was on the stand in the forenoon continued his testimony along the same lines in the afternoon, declaring the mains in very bad condition at that time.

J. M. Elder testified to the condition of the plant at the time of his superintendency, and his memory of the conditions in general was good but he was unable to speak positively on many details.

F. J. Murphy testified to repairing one leak a week on an average, between 1895 and 1900, which came from rust on the kalem pipes. Upon cross examination he said that the books of the concern passed into the hands of L. W. Sherlund when they dissolved partnership and he had no means of refreshing his memory in the matter. He admitted in answer to a question of Mr. Mitchell, attorney for the receiver, that he was simply making a guess as to the frequency with which he made repairs.

Andrew Robertson, was the next witness. He had worked on the mains in charge of repairs, for five years prior to 1890. He started in as an apprentice and continued at the work until the last named year. The holes in the pipe from rust began to be in evidence the last two or three years of the time he worked on the mains. He had no knowledge of the conditions of the pipe since 1890, except as they were known to all citizens.

The hearing dragged rather tediously this forenoon, only two witnesses being sworn. They were Arthur Hagelin and Oscar Roberts, employees of the Slipp-Gruenhagen Co. They testified as to the repairs they had been called upon to make. They swore that the breaks were usually small holes caused by rust and usually occurred after there had been heavy fire pressure on the mains. Mr. Hagelin testified that the leaks had not been so numerous the past or so as for a time previous. That he believed was because there were fewer fires of late and so less pressure upon the mains.

After adjourning last night the appraisers designated several spots where they wanted the mains laid bare for inspection. In three places the pipe was to be cut so they could see the thickness, etc. while in the others the main was simply to be laid bare for an inspection externally.

It was expected that the greater part of this afternoon would be spent in this inspection.

Vagaries of a Cold
You can never be quite sure where a cold is going to hit you. In the fall or winter it may settle in the bowels, producing intense pain. In the summer it may give you colic with diarrhoea or summer complaint. Do not be alarmed nor torment yourself with fears of appendicitis or inflammation of the bowels. At the first sign of the pain or cramp take Perry Davis' Painkiller in warm, sweetened water and relief will come at once. There is but one Painkiller, Perry Davis. It is now put up in a large 35c size as well as the regular 50c size.

How Masks are Made.
Paper masks are made by doubling one sheet of a specially prepared paper, wetting it and molding it by hand over a face form. It is then dried by artificial heat. Openings are cut for eyes, nose and mouth, and it is painted and decorated by hand as desired. Wire masks are made by stamping a piece of wire netting about a foot square over a face mold in a large machine, inclosing the rough wire edges in a narrow strip of lead. Then it is painted. The painting is done by hand in oil colors.—Exchange.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

YOKOHAMA'S BIG DAY.
Japanese Port Will Celebrate Fiftieth Anniversary at Cost of \$250,000.
The celebration of the fiftieth anniversary of the opening of the port of Yokohama, in Japan, to foreign commerce will be held on July 1 and 2 of this year.
It is proposed to spend about \$250,000 in entertainments, and the foreign squadrons of the nations represented in the Pacific and the far east will be invited to the harbor during the celebration. The foreign residents generally have expressed their desire to cooperate in every possible way. Among other things it is proposed to erect a memorial hall especially commemorative of the opening of the port.

DRUG TO GLADDEN TIMID.
Patient Retains Consciousness Under New Anaesthetic.
A discovery which will bring great satisfaction to the timid who fear to be put in a condition where they lose consciousness is reported in a telegram to the state department at Washington by the consul general at Bucharest, Roumania.
This is an anaesthetic, a combination of strychnine and stratin, discovered by a surgeon of Bucharest and from the application of which the patient does not lose mental consciousness. It is injected in the spine for operations below the waist and in the neck for operations above. Dr. Bannyrall, the consul general reports, has taken some of the anaesthetic to London.

German Joke on England.
Official Washington is chuckling over the latest bit of diplomatic gossip from London. The Anglo-German unrest, the phantom airships which hover over the channel and the Dreadnought building race all give point to the story. Here it is:
The military attache of the German embassy at London attended a performance of the sensational military drama, "An Englishman's Home," which was written to show the woeful military unpreparedness of England against a German attack. The next day a friend, hearing that the German officer had been to the theater, asked him what play he saw.
"I don't remember the name exactly," he replied, "but it should have been called 'What Every German Knows.'"

Revival of Maine Whaling.
Southwest Harbor, Me., plans a new industry during the summer in a revival of whale fishing. Whales are said to be plentiful off Mount Desert rock and vicinity, and John Stanley and sons have bought the steam yacht Princess from Castine summer parties and will utilize her for a whaling craft during the summer. The Princess is a slier, very fast, with 215 horsepower, and is seventy-two feet long. Bomb guns will be fitted on her decks, and she will go after the whales in dead earnest. Each finny monster is worth something like \$500, and after he is captured he will be towed to Southwest Harbor to go the way of all dead whales. The prospect for the whales this summer is by no means cheerful. —Lewiston Journal.

REV. CASKEY ACCEPTS
The First Congregational Church of Brainerd Has Called Illinois Man as Pastor

At a church meeting held a short time ago Rev. J. A. Caskey, of Atkinson, Ill., was unanimously chosen to become its pastor and a call was extended. C. Bruhn, church clerk, is just in receipt of a letter from Mr. Caskey who has accepted the call, and will begin his dastorate with the First Congregational church September 1st. Rev. Mr. Caskey, who has been pastor at the Congregational church at Atkinson, Ill., for the past five and a half years, made a very favorable impression when speaking here a few Sunday's ago. He is a strong spiritual man in the prime of his life, and will no doubt do good work here.

AMATEUR BASE BALL
The city ball team leaves at midnight tonight for Bemidji, where they will play tomorrow. The team has strengthened its lineup considerably. Bud Roderich and Al. Erickson, both well known players in this vicinity, will be in the game tomorrow, while Tommy DeRocher an old star pitcher will in all probability hold down the mound for the locals. The lineup will be as follows: Parker c, DeRocher p, Place 1b, Erickson 2b, Templeton (Capt.) 3b, Roderich ss, and Jacobs, Ousdahl and Loom in the outfield.
The Brewsters played one of the fastest games of the season yesterday defeating the crack Verndale team by the score of 6 to 4. The Brainerd boys were in the best of shape and played excellent ball. White showed that he has not lost control of the sphere and with a little practice he will be back pitching his usual great game. He held the enemy down to nothing but a few small hits. The Brewsters are surely holding their reputation against the best of teams and will now occupy their time practicing for their next game with Staples a week from Sunday.
The score for yesterday's game is as follows:
Brainerd 0 0 2 0 0 2 2 0 0-6
Verndale 0 0 0 0 2 0 0 2 0-4

FARM, HOME AND GARDEN
TRAINING TOMATOES.
This is the time of year to commence the training of tomato vines to secure the best results in the way of fruit. The average tomato vine runs too much to tops and too little to fruit. To prevent this the branch shoots, which start from the base of the leaf stems should be picked off, forcing all the strength into two branches. These should be trained to stakes or on trellises, so as to keep them up from the damp ground. This will go far to hasten the ripening. Merely pinching out the branch stems once or twice will not accomplish the desired results. The tomato is naturally a spreading vine and you will be surprised at the persistence with which the branches will start.
The early fruit—that is the first on the vine is, it is said much less acid than is the later fruit from the same vine. The tomato is a very vigorous grower and will do much better if the ground is well fertilized during the summer with the leachings from manure. This, however, should be applied diluted with about four parts of water to one of the liquid manure. Others have very successfully used the fertilizers sold by the packing houses and seed men.

Greens are a favorite dish among many nationalities. Many people go to much trouble to raise spinach when they can get greens equally as good without that trouble. There is not a neighborhood in which "lamb's quarter" or "pigweed" as the Yankees call it, is not to be found. The young plants of this weed can scarcely be told from spinach, except that the flavor is more like asparagus.

Women Who Are Envid
Those attractive women who are lovely in face, form and temper are the envy of many, who might be like them. A weak, sickly woman will be nervous and irritable. Constipation or kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. For all such, Electric Bitters work wonders. They regulate Stomach, Liver and Kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth velvety skin, lovely complexion. Many charming women owe their health and beauty to them. 50c at H. P. Dunn's.

Sheridan's Spelling.
The author of "The School For Scandal" had highly original views on the rules of spelling. In his "Critic" days, for instance, a "thing" to Sheridan was always a "think," and never by any chance did he remember that a "which" or a "where" to be really respectable must needs possess an "aitch" apiece. This rule of omission he also followed, sheeplike, in "whether" for "whether." Moreover, he scorned the use of a double "m" or a double "a." For example, "blesedness" was always "blesednes." —London News.

AS TO LOSING MONEY.
A Case Showing the Importance of a Ten Dollar Bill May Reach.
"To some men," said a man now of amplest means, "the loss of \$10,000 might be a joke, and then to some the loss of a ten dollar bill might be a tragedy."
"Poor? Why, we were so poor that we had to count every cent, every penny. Not that we were miserable. We were very far from that. As a matter of fact, we were happy, but we certainly did have all the time to sail very close to the wind."
"There were four of us—wife, two children and myself—and, bless you, how we did have to figure and scrimp to make both ends meet. I've seen the time, many a time, when a nickel was the last cent for certare. I often think what a blessing it was that we were none of us ever sick; that nothing ever happened to us. I don't know what we'd done if there had."
"I was going to tell you what it might be to some folks to lose a ten dollar bill."
"Ten dollars was the amount of our monthly rent, and whatever else we did we always saved out of my week's pay the weekly proportion of the rent, to have it ready when it was due. I always used to get a ten dollar bill in my pay envelope, and when it came to the last Saturday in the month we just used to take the ten dollar bill out of the envelope to pay the rent with, and then we had the amount we'd saved out of three weeks to go on for current expenses."
"Well, one last Saturday that happened to come three days before the end of the month we took the ten dollar bill out of the envelope as usual for the rent and as usual my wife put it away—she always looked after the finances—and there we were all comfortable and happy, with the next month's rent all ready, and then on the last day of the month, when she went to get it out to have it handy when the landlord came she couldn't find it!"
"If that wasn't a tragely I don't know a tragedy when I meet it. I don't suppose I took it quite so hard as she did, and I'd have shown it as little as I could anyway on her account, but to her it was nothing less than a calamity."
"When the children had gone to bed we tore the house apart. We looked and looked and looked into every nook and corner over and over again, but that ten dollar bill, with all that it meant to us—and I doubt if you can imagine how much it did mean—was gone. That was the first thing we had on our minds when we woke up in the morning, and gloomy enough for us that morning was. And then when I was eating my breakfast in our modest dining room she looked in at the door from the kitchen, and I've found

it," she said, and so she had, just where three days before she had hidden it away, and so was our great gloom changed to joy—to joy with a large, large J.
"Yes, sir. We got more now, by considerable, and now she has what she wants; now she doesn't have to skimp. In these days I take her home myself now and then a ten dollar bouquet. We can afford it. But I never shall forget as long as I live how we felt when we thought we'd lost that ten dollar bill or the joy that came to us when we found it, for, you see, how a loss strikes you depends so much on how much you've got."—New York Sun.

Climbs Up the Trunk.
The native elephant driver never has to bother with a step ladder in mounting his beast after he has trained him for a little time, for the easiest way to get up is to ascend by way of the trunk. Standing in front of the elephant, the driver grasps him by the ears, this being a signal that he wishes to mount, and the obedient monster promptly arches his trunk so that the master can easily step upon it and go right on up to the top of the elephant's head.

NATURE TELLS YOU
As Many a Brainerd Reader Knows Too Well
When the kidneys are sick, Nature tells you all about it. The urine is nature's calendar. Infrequent or too frequent action. Any urinary trouble tells of kidney ills.
Doan's Kidney Pills cure all kidney ills.
Brainerd people testify to this.
Mrs. Thomas Sizeland, living on S. Fifth St., Brainerd, Minn., says: "My husband thinks there is no remedy equal to Doan's Kidney Pills. For a long time he suffered intensely from pains through his loins and was also bothered by gravel formations. The kidney secretions were unnatural in appearance and entirely too frequent in action. Reading about Doan's Kidney Pills, he decided to try them and procured a box from H. P. Dunn's drug store. They benefited him in every way, in fact, he is now almost entirely cured."

WEEKLY REVIEW OF TRADE

The Tendency Is Still Toward Improvement.

New York, June 19.—Bradstreet's review of trade says the tendency is still toward improvement, the general crop situation, manufacturing industry and bookings for fall showing further gains, but irregularities of weather still retard the fullest development of retail trade and thereby affect reorder business with jobbers. In industrial lines the tendency is toward further expansion of operations. Numerous early cuts in wages have been restored and employment is more widely diffused. The building trades probably lead in volume of activity, but there are still complaints that lumber is not selling as freely as expected. The iron and steel industry maintains previous activity. Railroads are buying more freely. Good reports come from the woolen and worsted manufacturing lines, and Southern cotton consumption for the season is much larger than a year ago. The leather trades note a continuance of activity. The Western coal trade is looking up.

Madame Steinheil Must Stand Trial.

Paris, June 19.—The judges of the chamber of accusation, which corresponds in effect to the American grand jury, have upheld the conclusions reached by Examining Magistrate Andre and ordered that Madame Adolphe Steinheil stand trial at the Assizes court as the principal in the murder in this city last summer of her husband and mother.

ESCAPES WITH SMALL FINE

Mrs. Kaufman Is Found Guilty of Battery.

Flandreau, S. D., June 19.—Mrs. Emma Kaufman, accused of the murder of Agnes Polreis, a domestic, was found guilty of battery and was sentenced to pay a fine of \$100 or serve fifty days in jail. The fine was immediately paid. The case had been in the courts for three years and the trial just closed was the third one. The jury in the first trial disagreed. The second trial resulted in a verdict of manslaughter in the second degree, but this decision was reversed. The jury in the present trial brought in a verdict after being out all night.

AT MINNESOTA STATE FAIR

Federal Government May Authorize an Exhibit.

Washington, June 19.—If a plan discussed by Secretary of Agriculture Wilson and Representative Tawney is carried into effect the federal government will authorize an exhibit at the Minnesota state fair to be held the coming fall.

Up to date the central government has never officially participated in a function of this character.

It has participated in foreign exhibitions and in expositions of a national character held in this country, but has never taken part in a state fair such as is held in Minnesota every year.

TARIFF BILL PUZZLES TAFT.

President Told Wool Men Story Apropos of Schedule Intricacies.

President Taft recently confessed to a delegation of Ohio woolen manufacturers that he has become bewildered by the intricacies of the tariff measure. The delegation of manufacturers was the seventh that has called in the last few days, and all of them have urged conflicting changes in the schedule as proposed in the senate bill. The president threw up his hands when the woolen men sprang a seventh suggestion radically different from those made previously by other textile manufacturers.

"Gentlemen, gentlemen," he is reported to have exclaimed, "you remind me of an experience I had on my recent trip into the south. When passing through the mountains of Tennessee a reception committee boarded our car to accompany us to a town in which I was to speak. They were fine fellows, and the chairman of the committee was anxious to tell me all about the country. Our train was running along the bank of a beautiful stream, and I asked its name. The chairman mumbled something that was unintelligible. I asked him to repeat it. Again he mumbled so that I couldn't catch what he said. 'I beg your pardon,' I said, 'but I didn't understand it. Will you spell it?'"

"Waal, I don't reckon as how I kin," he replied. "Some folks spells it one way, other folks spells it another, and still other folks spells it different. In my pore judgement, jedge, they ain't no correct way to spell it."

The president looked around the group laughingly and added that, while he was not prepared to admit he was quite so uninformed on the tariff, he would confess that on some of the schedules the story explained his position fairly well.

BLIND MAN, GEOMETRICAL FAN

Figures Out Plays on Baseball Diamond by Locating the "Spot."

Although he has been blind from early boyhood, he is able to follow a baseball game and derive enjoyment from it—that is the experience of Clarence Hawkes of Hadley, Mass. He says there is no one in the grand stand who "sees" more of the game than he does.

"I always try to get such a seat that the diamond will be a geometrical figure before me," says Hawkes. "Then I can keep the players and their positions from becoming confused. Opposite first and third bases and directly behind the home plate are my favorite positions."

"I can then tell most of the plays as they are made by noticing how far away the 'spot' of the sphere is from me. Occasionally it is hard to tell whether a certain play is made by the shortstop or second baseman, but there is usually some clew that makes it clear."

"When the umpire calls 'Play ball!' my nerves are keyed to the highest pitch and my ears strained to catch the slightest sound. I am tired when the last man is out, but no small boy on the bleachers feels better paid for coming than I do."

MILITIA ON BATTLESHIPS.

State Naval Forces to Take Part in the Coming Maneuvers.

Naval militiamen of the eastern states for the first time since their organization are to have the benefit of training on board regular battleships. This was decided the other day by the department, and twenty-one companies of militiamen will get instruction in seamanship in company with regular crews from July 11 to Aug. 7, says a Washington dispatch. One company of militia, numbering sixty men and four officers, will be assigned to a battleship, while the staff and commanding officers of the militia will have special opportunities for instruction.

Maine will have one company for such training, Massachusetts nine, Rhode Island three, Connecticut one, New Jersey two, Pennsylvania two, and the District of Columbia three. All of the New England militiamen will join the battleships when they are off Provincetown, Mass., the others being taken aboard at the most accessible ports at which the battleships may stop.

LONG WRANGLE IN THE HOUSE

Ends in Adjournment Being Taken Until Monday.

Washington, June 18.—After a wrangle of nearly an hour the Democrats in the house failed to obtain the passage of a resolution calling upon the state department for the transmission to the house reports on foreign wages and cost of production in foreign countries, except Germany. Representative Hull of Tennessee, author of the resolution, made the point of no quorum. The house then adjourned until Monday.

The president's special message on corporation and income taxes was read at the beginning of the session.

Wasted Opportunities.

The view of the proper uses to which money may be applied depends wholly upon the individual. There are many who will see nothing funny in the old man's comment on the uses a departed relative had made of her property.

"I dunno what good Elizabeth's money ever done her," said Mr. Sage reflectively. "She spent it all; give it away here and there and bought things with it."

"No, sir," he continued, "it wa'n't much good to her. She didn't leave a cent."—Youth's Companion.

DUSTIN FARNUM IN LIMELIGHT

His Name Frequently Mentioned in the Gould Case.

CALLED HIM HER NEW BEAU

Witness Declares That Mrs. Howard Gould So Referred to the Noted Actor—Servants Again Tell of Seeing the Plaintiff Under the Influence of Liquor—Hotel Clerks on the Witness Stand.

New York, June 19.—The flow of testimony adduced by the defense in the suit for separation brought by Katherine Clemmons Gould against her husband, Howard Gould, kept edging more and more toward Dustin Farnum, the actor, whose broad shoulders and mass of curly hair have become a familiar figure in the case. There was also iteration by servants and personal attendants that Mr. Gould was repeatedly seen under the influence of liquor by them, and that when she had been drinking, as they alleged on the stand, she changed from a charming, affable woman to a woman of whims and caprices, ill-tempered, not nice in her choice of language, overbearing and quarrelsome. Mrs. Gould's one time personal valet swore that at one time he served his mistress with two quarts of Manhattan cocktails in as many days, besides the wines and liquors which he said she drank at the table. On cross-examining these witnesses, Clarence J. Shearn for Mrs. Gould proved either that they had a personal grudge against her or that they were under obligation to Mr. Gould. Endearing epithets twice marked the testimony.

Said He Was Her New Beau.

John H. Kimball, an oil and paint dealer, who said he had known Mrs. Gould for eighteen years, testified that he went to a performance of "The Virginian" in August, 1906, with Mr. and Mrs. Elijah Sells and the Goulds, at the Academy of Music, in this city, and that Dustin Farnum, the star in the play, joined the party outside the playhouse after the performance and spoke to Mrs. Gould. She smiled, the witness testified and said to the witness, "this is my new beau."

John Flynn, who said he was employed by Mrs. Gould as a chauffeur, and that he often drove her to meet Farnum after the play, testified that once when Mrs. Gould was waiting in the automobile for Farnum at the Hotel Somerset, two men turned to the actor as he came out at the hotel door and asked whose auto was waiting.

"Oh," said Farnum, laughing, Flynn testified, "that is my new one." Another time, Flynn swore, when he rapped on Mrs. Gould's chamber door at the St. Regis, she called out: "Alright, dearie," and then, when she saw who it was, excused herself, with: "I thought it was Mr. Farnum."

Mary Elizabeth Harrison, a fresh cheeked, good-looking girl, who said she was a floor clerk in the Bellevue-Stratford hotel in Philadelphia, prefaced her testimony with the explanation that it was her first appearance in court. She had been impelled by her conscience, she said, to tell what she saw at the hotel.

Man Came From Mrs. Gould's Room.

Mrs. Gould occupied apartments on the floor where she was stationed in September, 1906, the witness went on, and one morning about 7:30 o'clock she said she saw a man come out of Mrs. Gould's room and take the elevator. She noticed that he was the only passenger in the car, and that the dial registered fourteenth floor when the car stopped. She described the man as tall, with dark, bushy hair, and wearing a soft hat and a long coat.

The defense contends that Dustin Farnum was staying on the fourteenth floor of the hotel and that they attempted to show by the next witness, Florence Garner. She also was employed in September, 1906, as a floor clerk in the Bellevue-Stratford, on the fourteenth floor, she said, when Dustin Farnum was playing in "The Virginian" at Philadelphia. She testified that Farnum had a room on that floor at the same time Mrs. Gould had rooms on a lower floor. She remembered that one morning he came up in the elevator rather early, and appeared to her "less well-groomed" than usual.

"Did you take any means to find out if Mr. Farnum's room had been occupied that night?" asked Delancey Nicoll, Mr. Gould's lawyer.

"No, but the maid reported that it had not been," the witness answered.

MRS. TEAL TO STAY IN PRISON

State Supreme Court Confirms Her Conviction.

New York, June 19.—The appellate division of the supreme court confirmed the conviction of Mrs. Margaret Teal, wife of Ben Teal, the theatrical manager, of attempted subornation of perjury in the divorce case of Helen Kelly Gould against Frank J. Gould.

Mrs. Teal is now in Blackwell's island prison serving the term of a year to which she was sentenced.

WINS THE INDIANA TROPHY

Joseph Matson Finishes First in Auto Race.

Crown Point, Ind., June 19.—First honors in the opening "Western Vanderbilt" auto races went to Joseph Matson, who piloted a Chalmers-Detroit "Blue Bird," to a brilliant victory over fifteen rivals. The race was for light cars only and while of great importance in itself, was generally considered as preliminary to the race of the big cars for the Cobe cup over the same course. Perfect weather and the absence of any save the most trivial injuries to drivers were fortunate circumstances attending the winning of the Indiana trophy by Matson. The field numbered sixteen cars at the start, the Ford and Renault having withdrawn.

The leading trio finished as follows: Chalmers-Detroit (Matson), 4:31:21; Locomobile (Robertson), 4:39:03; Marion (Monsen), 4:42:03.

The time of the other cars was not taken as they were flagged off the course after the first three had finished. The total distance was 232.74 miles.

COLLEGE MEN ARE FIRING

Six Men Rifle Teams Competing For Intercollegiate Trophy.

Sea Girt, N. J., June 19.—The intercollegiate rifle match for a leg on the trophy now held by George Washington university will be decided today on the New Jersey state range at this place.

The match is open to six men teams from all universities or colleges conferring degrees. The championship was won in 1905, the first year of the competition, by Princeton and in 1906 and 1908 by George Washington, there being no match in 1907.

Baseball by Electric Light.

Cincinnati, June 19.—Baseball by electric light put on as an experiment at the Cincinnati National league grounds at night was pronounced a success by President Herrmann of the national baseball commission, Manager Clark Griffith of the Cincinnati Nationals and other authorities. The game was played by amateurs.

Engineer Killed.

Scranton, Pa., June 19.—Engineer Davis of Kingston was killed at Mount Pocono on the Delaware, Lackawanna and Western railroad by his head striking the platform hood of a freight depot as he leaned from his cab.

Airship Traveling Trunk. German ingenuity has lost no time in devising special equipments for airship passengers. One offering is an extremely light airship traveling trunk made of aluminum, with cunning leather attachments for fastening to the airship car. The "malle aero," to give it its international name, has no compartment for the large, fashionable feminine hat yet, but it contains, among other things, a small medicine chest filled with medicaments that may be useful for a sojourn in high altitudes.

Of Interest To Women.

To such women as are not seriously out of health, but who have exacting duties to perform, either in the way of household cares or in social duties and functions, which seriously tax their strength, as well as to nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nerve. By its timely use, much serious sickness and suffering may be avoided. The operating table and the surgeon's knife, would it be believed, seldom have to be employed if this most valuable woman's remedy were resorted to in good time. The "Favorite Prescription" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a MEDICINE OF KNOWN COMPOSITION, a full list of all its ingredients being printed, in plain English, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taking the place of the commonly used alcohol, in its make-up. In this connection it may not be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and ailments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended. A little book of these endorsements will be sent to any address, post-paid, and absolutely free if you request same by postal card, or letter, of Dr. R. W. Pierce, Buffalo, N. Y.
